

WATER CONSERVATION TIPS

Indoor Use	Outdoor Use
Inspect your home for leaks	Leave grass clippings on the lawn
Install low flow fixtures	Avoid watering your lawn in the hot sun or on a windy day
Wait for the dishwasher to be full before running it	Use a bucket and a hose with a shut-off nozzle to wash the car
Don't leave the tap running when brushing your teeth	Don't water your lawn more than twice a week
Take shorter showers	Aerate your lawn twice a year, if possible

- **Manage your Indoor and Outdoor Water Use**
- **Watering the Lawn can Account for over 50% of Total Water Usage in the Summer**
- **Water Meters help you Conserve Water and Pay for Only What You Use**
